

OPT-1100P Series PoE (PSE) Media Converter

100Base-Fx to 10/100/1000Base-Tx

RoHS Compliant

>>Description

As more and more PoE PD devices need higher power input and long-distance transmission, OPTONE has released a new Power over Ethernet Media Converter, OPT-1100P series. With the brand-new IEEE 802.3at High Power over Ethernet technology applied.

The OPT-1100P series is a Single-Port, End-Span IEEE 802.3at High Power over Ethernet converter designed specifically to satisfy the growing demand for higher power required network equipment such as PTZ (Pan, Tilt & Zoom) network cameras, PTZ speed dome, color touch-screen VoIP telephones, multi-channel (IEEE 802.11a / b / g / n) wireless LAN access points and other network devices that need higher power to function normally. The OPT-1100P High Power over Ethernet converter series is an ideal solution to delivering data and power to network devices directly via the RJ45 Port interface without the need for installing extra power outlets and electrical cabling.
